Gutes Studienbuch / Good TranslationVon Thomas BeckerEine gute englische bersetzung des Klassikers des Vernunftrechts. Stephen C. Neff gelingt es, die barocke Sprache des Originals und zeitgenssischer bersetzungen in eine moderne Fassung zu bringen. Leider fehlen oft Literaturzeitate, die gerade das Original auszeichnet und einzigartig macht. Dennoch fr den ersten Zugang zu Hugo Grotius und seinem Werk ein gute Empfehlung.Good English translation of the paragon of natural law. Stephen C. Neff is able to bring Grotius' baroque language and the contempary Englisch translations in a modern form for modern reades. Sometimes it lacks the complex citation of sources what makes

Grotius' work unique. But a good start for Grotius and his oeuvre.

Kurzbeschreibung Despite its significant influence on international law, international relations, natural law and political thought in general, Grotius's *Law of War and Peace* has been virtually unavailable for many decades. Stephen Neff's edited and annotated version of the text rectifies this situation. Containing the substantive portion of the classic text, but shorn of extraneous material, this edited and annotated edition of one of the classic works of Western legal and political thought is intended for students and teachers in four primary areas: history of international law, history of political thought, history of international relations and history of philosophy. **Pressestimmen** 'Neff's new student edition offers an excellent balance between authenticity, affordability and access to the original text.' Christopher J. Finlay, *International Affairs* **ber das Produkt** This edited and annotated edition of one of the classic works of Western legal and political thought is intended for students and teachers in four primary areas: history of international law, history of political thought, history of international relations and history of philosophy.
