KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich.
Erinnerungen von Will Entreakin fr wenig GeldVon anonymAnhand von persnlichen Erlebnissen und Eindrcken
schildert der Autor nicht nur den Tag selbst, sondern auch die Zeit danach. Sprache: englisch, Preis: jeden der 89 Cent
wert

KurzbeschreibungFour essays chronicling, considering, and contemplating September 11th, 2001:"What I Saw That Day (9/11/01)" - An eyewitness account of midtown Manhattan on the day of the event, from an ordinary commute into the big City (and breakfast from a sidewalk street cart) to an ominous return home via the Hoboken ferry (the trains by then long shut down) during the very moments when World Trade Center 7 fell."Every Now and Then I Fall Apart" - September 11th changed a whole world, and everyone's world changed along with it. A month after the events of that tragic day, the author begins to discover how his own world has changed at a piano bar in midtown Manhattan, where a requested-but-impromptu audience-participation performance of Bonnie Tyler's "Total Eclipse of the Heart" provides some catharsis, if nothing else."The Come Back" - Which considers preparations to return to City life nearly a decade after leaving it in an attempt to cope with the devastation wrought--an attempt unrealized in more ways than one. But like a lover, Manhattan welcomes one back, embraces one and bestows on one the confidence to once again face life head on."I Still Love You Though New York" - A full decade later, some peace with those terrible events is found, a new life begun, new hope realized. Sometimes it takes a while, but sometimes that's because it's about building a stronger foundation.***All proceeds donated to charities supporting families devastated by and memorials dedicated to the tragic events of September 11th, 2001***KurzbeschreibungFour essays chronicling, considering, and contemplating September 11th, 2001:"What I Saw That Day (9/11/01)" - An eyewitness account of midtown Manhattan on the day of the event, from an ordinary commute into the big City (and breakfast from a sidewalk street cart) to an ominous return home via the Hoboken ferry (the trains by then long shut down) during the very moments when World Trade Center 7 fell."Every Now and Then I Fall Apart" - September 11th changed a whole world, and everyone's world changed along with it.
