**Von Norman Gelb : Ike and Monty: Generals at War (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Ike and Monty: Generals at War (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Not quite good enough!Von Ein KundeAs a historian, I've read several types of books for several reasons. Not being an expert on the Second World War, I read much of this book discovering just what happened during this century's biggest struggle. Knowing something of Ike and very little of Montgomery, I was able to fill in some of the blanks. If

you are looking for a military history, a John Keegan work this is not. If you are looking for some real insight into the personal, professional, and commander/lieutenant relationship, you will be left wanting. If you are looking for a brief overview of the history of Ike's and Monty's relationship, you will enjoy this read.0 von 0 Kunden fanden die folgende Rezension hilfreich. Good, brief biography of two top generals.Von Ein KundeThis was a very readable book that presents the backgrounds and careers of Eisenhower and Montgomery. While the book does come up short in fully analyzing the clashes between the two men, he does give a good account of the pressures Eisenhower was under and how maddening it must have been for anyone to deal with "Monty" for any length of time. The ending seemed abruptly cut off, but I would recommend this book for those wanting a brief overview of these two generals.0 von 0 Kunden fanden die folgende Rezension hilfreich. Starts off Good but the Finish is less than OrdinaryVon Ein KundeI was under the impression based on the title of this book that the author had some real insight into the relationship between Ike and Monty, however if he did this was not presented in the book.The Book starts off well presenting the Backgrounds of both Ike and Monty however when the book reaches the WWII stage, it then just becomes a brief review of the campaigns in Europe and the roles played by both men.This book was a real disappointment to me.

KurzbeschreibungThe Allied invasion of Normandy was one of the greatest military operations of the last hundred years. But although it was led by two great commanders, they seldom saw eye to eye. Dwight David Eisenhower and Bernard Law Montgomery were men of such profoundly contrasting temperaments and strategic orientation that their relationship was bound to be stormy. Ike and Monty is the first book to focus exclusively on how their often bitter relationship determined the fate of the Allied effort to liberate Europe in World War II.From the invasion of North Africa to D-Day, from the Battle of the Bulge to the fall of Berlin, Ike and Monty draws a masterful portrait of a tortured union between two military giants. It is also an account of how their clash of wills came to personify the historic moment when the United States assumed the role of superpower in the West and once-powerful Great Britain was obliged to accept that it could no longer aspire to such exalted status.Norman Gelb has written several highly acclaimed books, including Desperate Venture: The Story of Operation Torch, the Allied Invasion of North Africa and Dunkirk: The Complete Story of the First Step in the Defeat of Hitler. He lives in London and is a correspondent for New Leader magazine.Praise for Norman Gelb:Mr. Gelb has excavated beneath surface events, delved into political and psychological factors, and produced an intelligent, fast-moving narrative. PROFESSOR ARNOLD AGES, Baltimore Sun Vivid and comprehensive Absorbing Sets a high standard for other reconstructions Kirkus s Endeavour Press is the UK's leading independent digital publisher.
