Pulverisiert den "lone assassin" Mythos ein fr alle malVon deepsouthBarry Krusch beweist bereits in Teil 1 anhand von Original-Dokumenten, dass es einen Fall gegen Oswald gar nicht geben kann.Er BEWEIST (nicht vermutet) anhand von Polizeifotos und Akten, dass am "Tatort" z.B.: nur 2 Patronenhlsen gefunden wurden und das selbst diese "Beweise" wie in dem Buch eindrucksvoll dargestellt rein GAR NICHTS beweisen. Weiterhin zeigt er auf, dass die Fotos vom Tatort erst Tage (und nachdem man Oswald, der jetzt bereits tot war, zum alleinigen Tter erklrt hat) nach

dem Mord entstanden sind und zudem angebliche Nachstellungen der Original-Szene waren. Weiterhin beweist Krusch, dass Oswald sowohl FBI-Informant war, als auch eine CIA-Personalakte hatte. Kurz und gut: Wer sich endgültig davon berzeugen will, wie die "Beweislage" gegen Oswald und die Verteidiger des "lone assassin" Mythos entweder ins Reich der Fabeln oder in eine Zwangsjacke gehen, der sollte dieses Buch lesen. Mich würde mal interessieren, ob Leute wie Bugliosi oder Posner sich trauen würden, die "Challenge" anzunehmen. So, wie es aussieht nicht, denn für solche Leute gibt es nichts mehr zu gewinnen und es wäre wünschenswert, wenn diese ein für alle Mal zusammen mit ihrem Gift in der Versenkung verschwinden würden. Lee Oswald geht offiziell rehabilitiert und der Fall neu aufgerollt. Für Mordfälle gibt es schliesslich keine Verjährungsfristen in den USA, und da es keine Verhandlung gab ist der Fall weiter offen. Wenn Leute wie Obama wirklich Mut hätten, würden sie hier handeln. Bis dahin gibt es leider nur wertvolle Bücher wie diese. Danke, Mr. Krusch!

Kurzbeschreibung In the last 50+ years, hundreds of books have been written on the Kennedy assassination. But there is only one of them -- this one -- which comes backed with a better-than-a-moneyback guarantee: prove the conclusions of this book wrong before a jury of 12 arbitrators, and you get \$100,000. Fail to prove it, and you pay the author nothing. As a consequence of this unique offer, you do not even need to read this book to know that it proves, conclusively, that there is absolutely no case against Lee Harvey Oswald. You know this because out of the thousands of people who have read and downloaded this book, not one of them have dared to take The JFK Challenge, including numerous notable proponents of the lone assassin theory, such as Vincent Bugliosi, Stephen King, John McAdams, and Gerald Posner. Moreover, not one of the hundreds of people on Kennedy assassination Internet websites have dared take the offer either. Just what is the evidence in this book that is so devastating? The answer is simple: merely the evidence of the case, but put together in novel and at times startling ways. Read this book, and you will find out why the case against Oswald is a complete fantasy, and why in fact, after reading this book, no sane person could ever believe that Lee Harvey Oswald could have been found guilty in a court of law. Get ready for the truth, America: there is not one person in the United States, or even the planet, who truly believes that Lee Harvey Oswald would have been convicted of the assassination of President Kennedy. This is especially true because, when all the evidence is analyzed, it becomes painfully apparent that Oswald was framed. The question now is, what do we do about it?
