Wow...^Von Luis HernandezVery thrilling book... it is very well written and when you read it you can really imagine

how awful it should have been...

KurzbeschreibungIn July of 1943, British and American bombers launched an attack on the German city of Hamburg that was unlike anything the world had ever seen. For ten days they drenched the city with over 9,000 tons of bombs, with the intention of erasing it entirely from the map. The fires they created were so huge they burned for a month, and were visible for 200 miles. As those who survived emerged from their ruined cellars and air-raid shelters they were confronted with a unique vision of hell: a sea of flame that stretched to the horizon, the burnt-out husks of fire engines that had tried to rescue them, charcoaled corpses and roads that had become flaming rivers of melted tarmac. Using many new first-hand accounts and other material, Keith Lowe gives the human side of an inhuman story, and the result is an epic story of devastation and survival, and a much-needed reminder of the human face of war.

PressestimmenA real triumph: shocking, yet sensitive and supremely fair-minded. This is a wonderful book about hellish events. The definitive account of a great tragedy (A.C. Lowe has produced many new first-hand accounts which give a human face to a tale of epic destruction (Daily Express)Scrupulous...sensitive to all the paradoxes of the bombing war (Richard Overy Literary)Exemplary (Observer)Altogether a terrific book and work of research (Captain Eric 'Winkle' Brown, WWII pilot and author of 'Wings on My Sleeve')Well written, meticulously researched...gripping and holds the attention effortlessly - Keith Lowe says he found it a compelling subject on which to write, I found it compelling to read (British Army)Balanced, thoughtful, engaging...Inferno is well researched and well written. Admirably balances the testimony of the bombers and the bombed (History Today)Total war, Lowe shows in this extraordinary study of the bombing of Hamburg in 1943, is experienced in every sense and assails every conceivable emotion (Scotsman)Thoughtful, scrupulous, intelligent. Inferno, humane, at times impassioned, constitutes a powerful indictment of all policies that dissociate means from ends (Independent)Meticulously researched...a powerful reminder of the human face of war (Choice)
