Von Spammer-X Spammer-X : Inside the SPAM Cartel: By Spammer-X before purchasing it in order to gage whether or not it would be worth my time, and all praised Inside the SPAM Cartel: By Spammer-X:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. What you always wanted to know about spamVon Ein KundeThis book provides an interesting and detailed insight into spam and how it works - for example, who are the people behind spamming, what is their motivation, how does spam generate money. Spam is not a harmless message you are not interested in. It is an attack that costs real money. The author covers different aspects of spam, its costs, but also how users are tricked into doing things they do not want to do.The book is easy to read, and the technical details are described in a way that they can be easily grasped.I hope that this book increases the awareness of the dangers of spam and the Internet.

Kurzbeschreibung Authored by a former spammer, Inside the SPAM Cartel is a methodical, technically explicit expose of the inner workings of the SPAM economy. Readers will be shocked by the sophistication and sheer size of this underworld. From the author: "You may hate spam and think all spammers are evil, but listen to my story and see why I do this and more importantly, HOW." For most people, the term "SPAM" conjures up the image of hundreds of annoying, and at times offensive, e-mails flooding their inbox every week. But for a few, SPAM is a way of life that delivers an adrenaline rush fueled by cash, danger, retribution, porn and the avoidance of local, federal, and international law enforcement agencies. Inside the SPAM Cartel offer readers a never-before seen view inside this dark sub-economy. You'll meet the characters that control the flow of money as well as the hackers and programmers committed to keeping the enterprise up and running. You may disagree with their objectives, but you can't help but to marvel at their ingenuity and resourcefulness in defeating spam filters, avoiding being identified, and staying one step ahead of the law. Spam makes up now 64% of all email sent and it is said to be the most annoying part of being online. You'll meet the characters that control the flow of money as well as the hackers and programmers committed to keeping the enterprise up and running.
