Diese tolle Buch ist teuer geworden ;-)-Von Frank LEHNENIch hatte schon versucht iPad only zu fahren, das heisst zu mglicht 100% auf meinem iPad zu arbeiten, doch hat mich immer wieder etwas davon abgebracht.Dieses Buch hat es

jetzt geschafft! Ich brauche meinen iMac nur noch zum Scannen meiner Analogfotos. Der Rest, sogar das bearbeiten spielt sich auf dem iPad ab. Und hier ist der Haken, warum dieses Buch sehr teuer geworden ist..... es hat mich zu Recht, zum Kauf eines iPad Air 2 verleitet. Jetzt bin ich mehr als zufrieden. Leider nur 4 Sterne, da das Buch mitunter etwas holprig daherkommt und wegen der Beschreibung der Erfahrungen der 2 Autoren Vieles sich wiederholt.

Kurzbeschreibung This book is a result of our experience of using iPads as our main machines for over a year now. We believe this to be the first real post-PC book. We show how we use our iPads to work, play and everything in between... and how much fun we have in the process. The best part: you can do the same.
