**Von Helena Petrovna Blavatsky : Isis Unveiled Vols. I II (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Isis Unveiled Vols. I II (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen6 von 6 Kunden fanden die folgende Rezension hilfreich. isis unveiledVon William FossI first read this book some thirty years ago and have reread it often. Combine it with Blavatsky's Secret Doctrine, Alice Bailey's Treatise on Cosmic Fire, Manley Hall's Secret Teachings of All Ages, and Douglas Baker's Esoteric Astrology and Dictionary of Astrology and you have just about the sum total of western knowledge worth knowing.3 von 3 Kunden fanden die folgende Rezension hilfreich. A good intro in Blavatsky's workVon Ein Kundethis version of Isis unveiled in abridged form is a good initiation into the mystical words of

blavatsky. Although it is not complete, and for full information one should read the full version of Isis unveiled this book is a good introduction. Also it has the advantage of bringing some words closer to modern world ideas, in a kind of way "translating" the book in a modern way. 1 von 1 Kunden fanden die folgende Rezension hilfreich. Great for anyone that seeks the real story of spirituality Von Ein Kunde Isis is a wonderful book that makes anyone, entering the 21st century, think of our real human being condition and the destiny of human race. Written so many decades ago, it retains the Blavatsky's wisdom and, if not so unveiled as the title states, opens a new vision to our past and, surely, our bright future.

Kurzbeschreibung A master-key to the mysteries of ancient and modern science and theology. Kurzbeschreibung A master-key to the mysteries of ancient and modern science and theology. Synopsis This first major work by the young Russian noblewoman who founded the Theosophical Society, explores "the mysteries of the ancient and modern science and technology".
