Von Ivor Horton : Ivor Horton's Beginning Java, Java 7 Edition (English Edition) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Ivor Horton's Beginning Java, Java 7 Edition (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 1 von 1 Kunden fanden die folgende Rezension hilfreich. OK Von stuggitown Habe das Buch fürs Studium kaufen müssen als Lektüre zur Veranstaltung. OK das Buch ist sehr dick und schwer, aber das kann ich nicht in die Bewertung einfließen lassen. Das erste Kapitel (die Einführung) ist noch einigermaßen gut zu lesen, aber dann wirds schwierig. Ständig werden Sachen angefangen zu erklären, gefolgt von dem Hinweis, dass es dann aber erst in späteren Kapiteln erklärt wird und man sich gedulden soll. Habe dann nach dem zweiten Kapitel aufgehört zu lesen und mir eine alternative Lektüre gesucht. Unser Prof hat das Buch darum nun auch

in seiner Vorlesung ersetzt. Fr einen Anfnger nicht unbedingt die beste Wahl.
