FlugzeugbuchVon AlexDas Buch hat meine Erwartungen voll erfllt und ich wrde es sofort wieder kaufen. Das Buch ist jedem interessierten zu empfehlen.1 von 3 Kunden fanden die folgende Rezension hilfreich. BizarrVon Willy-Robert SauerWer sich fr bizarre und ausgefallene Flugzeugentwrfe begeistern lsst, sollte zugreifen. Beinhaltet das Buch doch auch bisher unverffentlichte Konzeptstudien, die mit eindrucksvollem Bildmaterial prsentiert werden.

Kurzbeschreibung A fascinating look at the largely untouched world of Japanese secret aviation projects, many of which actually took to the skies amid the chaos of World War 2. The book is divided into two sections dedicated to the air forces of the IJA and IJN with over 42 aircraft examined, each with a history, variants, performance and any other combat records laid out in an easy to read format. Pressestimmen "I thoroughly enjoyed this book. If you share my penchant for history's 'what ifs' you will, too. Grab this reprint! Recommended!"--David L. Veres "Cybermodeler" (04/09/2015) "I found the book to be a very enjoyable read, and I was surprised to see how advanced many of the designs actually were. It is a treasure trove for scratchbuilders wanting to do something different."--Paul R. Brown "IPMS/USA" (04/23/2015) Kurzbeschreibung A fascinating look at the largely untouched world of Japanese secret aviation projects, many of which actually took to the skies amid the chaos of World War 2.
