Perfect for Android virgins - Sehr hilfreich fr Android AnfngerVon FleischerI am an Android virgin and I was disappointed about not getting a decent manual with my Samsung Tablet 10.1. So I compared quite a few books available on the market in German and English. I thought that this book was promising what I was looking for and I was right. It was very helpful understanding how Android works and how things are done on a Samsung Galaxy 10.1. The author even gives a lot of hints, which an ordinary manual wouldn't give.Habe lange berlegt, welches Buch ich mir als Android Laie kaufen soll. Mein Samsung Galaxy 10.1. hatte leider gar kein Handbuch dabei. Diese Buch versprach am meisten und ich wurde nicht enttuscht. Der Autor gibt auch jede Menge Tips, die ein Handbuch nicht beinhalten wrde. Auch fr

mich als PC und MS Windows Fan fand ich jede Menge Antworten auf meine Fragen.
