Von Conrad Waters : Seaforth World Naval Review 2014 before purchasing it in order to gage whether or not it would be worth my time, and all praised Seaforth World Naval Review 2014:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Sollte bersetzt werdenVon Sven HerwigWieder hervorragende Auswahl herausgegriffener Einzelschiffe. Der Artikel ueber die britischen Bauwerften ist schon der uninteressanteste. Doch so uninteressant ist das gar nicht, was fuer Fortschritte bei Serienproduktion mglich sind. Waere doch mal ein Pldoyer fuer europaweite Einheitsschiffe, zumal sich die Designs, auch dank gleicher Aufgabenstellungen, annaehern. Mehr als bilaterale Programme sind bisher nicht drin - bis irgendwann das Werftensterben es unumnglich macht. Der Torpedo-Artikel ist etwas anglophil geraten. Die Flottenubersicht am Anfang ist fuer das einzelne Buch gut. In der Reihe werden die Entwicklungen herausgearbeitet. Warum gerade die Navy Neuseelands die beste sein soll erschliet sich mir nicht so ganz. Zumal man in der Zeitschrift Marineforum von diversen monetren und technischen Problemen lesen kann (SH-2G, Versorger). Die Reihenfolge der Regionen stellt wohl die US-Prioritaeten klar: Amerika, Asien, Indik, Europa. Insgesamt gesagt steigert sich das Buch vom Anfang zum Ende - auf hohem Niveau. So etwas vermisse ich auf dem deutschen Markt. Am ehesten wrde dem noch eine Mischung aus Klnler Flottenkalender und dem Weyers entsprechen.0 von 0 Kunden fanden die folgende Rezension hilfreich. Der neue Standard.....Von GigantVergesst Janes, das ist die neue Referenz. Einfhrung in die neuen Schiffsmodelle, Technikhighlight und wunderschne Blueprints.Klare Kaufempfehlung und Wert die Reihe zu sammeln.

Kurzbeschreibung Since its launch in 2009 this annual has rapidly established a reputation as an authoritative but affordable summary of all that has happened in the naval world in the previous twelve months. It combines the standing features of regional surveys with one-off major articles on noteworthy new ships and other important developments. Besides the latest warship projects, it also looks at wider issues of importance to navies, such as aviation and electronics, and calls on expertise from around the globe to give a balanced picture of what is going on and to interpret its significance. Special features for this year include a survey of current and future torpedo developments, an in-depth study of the Royal New Zealand Navy, a look at how the Royal Navy is coping after the Strategic Defense and Security , plus analyses of significant new warship classes: the Japanese Hyuga class DHH concept, the USNS Spearhead Joint High-Speed Vessels, Danish Iver Huitfeldt class frigates, and German AIP technology as demonstrated in the recent Type 212A submarines. For anyone with an interest in contemporary naval affairs, whether an enthusiast or a defence professional, this annual has become required reading.
