Von SD Dale : SECURITY BREACH!: 50 Secret Tips Tricks To Protect Your Privacy --And Your Money (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised SECURITY BREACH!: 50 Secret Tips Tricks To Protect Your Privacy --And Your Money (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Still learning new informationsVon Autorin "Scent of Rainbow"After having learned so much about internet security, i

have been amazed of the opportunity of coming to know still new informations.

KurzbeschreibungUpdated! SECURITY BREACH! 50 Secret Tips Tricks To Protect Your Privacy --And Your MoneyPrivacy is becoming extremely rare these days. You would be surprised at the incredible amount of personal information about you and your family on the Internet today. "Big Data" is getting bigger and more intrusive every day; Identity theft and identity fraud are crimes on the rise! People just don't realize how easy it is for hackers and criminals to get their personal information...and then their money!But, there are ways to protect yourself. In this book you will find many ways to thwart the attackers and protect your most precious assets: your privacy and your financial and digital security! The more layers of protection and roadblocks you can put between yourself and the criminals, the better off you'll be.You will find over 50 secrets, tips and tricks in this book, like: How to protect yourself from the devastating, security vulnerability called The Heartbleed Bug and the Target and Home Depot data breaches. A must have list of the best security (hardware and software) tools and apps for computer, smartphone and tablet security. What are some of the best Password Managers, and Encryption products and services? Many listings, comparisons and links to the best online Cloud Backup Services. Great listings and suggestions of unique Apple and Android apps to keep you safe on your laptop, smartphone or tablet. ...and even More Resources to help keep you private, safe and secure while shopping and surfing online.Many secrets are revealed about stealthy apps, tools, tips, tricks and software that will help you surf and shop the web safely and anonymously.Don't think it can happen to you? Think again! Prepare and educate yourself to the many dangers of our digital world so you don't become one of the victims who wishes they'd done more before it happened!This book will tell you some of the things you can do to protect yourself from cyber-crime and data theft. And it will suggest to you some surprising things you shouldn't do!I hope that you will find some useful secrets, tips and tricks to help keep you safe from all the unscrupulous and dangerous hackers, scammers and criminals who are out there every day trying to find a way to steal your identity and your money.Scroll up and click the 'Buy Now' button and grab the book that can help you stay one step ahead of all of the data brokers, hackers and scammers out there!Tags: Home Depot Data Breach, Home Depot, Apple Watch, Smartwatch, iPhone 6, iPhone 6 Plus, iWatch, Online Privacy and Security, Apple Pay, Security flaw in Internet Explorer, Mobile Payments, tap-to-pay, Siri, National Security Agency, Online Security, Baby Monitors, Cyber Terrorists, Data Theft, Social Media, Facebook, Social Networking, Twitter, Fraud, Global Risk, Hackers, Phishing, Emails, Identity Theft, Pinterest, Cracking, Big Data, Instagram, Cyber Crime, Cyber Security, Cyber War, Social Media Sites, Social Networking Sites, Data Breach, Data Fraud, Cyberspace, Cyber Attacks, Neiman Marcus, Save Money, Anonymous, Stuxnet, Starbucks app, Data Breach, Target, Identity Fraud, Security Breach, Protect Your Privacy, Data Security Breach, Protect Your Money, Social Media Dangers, Russian Hackers, Chinese Hackers, Social Media Security, Starbucks app, Starbucks app Security Breach, Target data breach, Smartphone security, Tablet security, iPhone security, Android phone security, Samsung smartphone, Samsung tablet, iPhone, iPod Touch, iPad, iPad Air, Windows Phone, Nokia, Samsung Note 3, Kindle Fire HD, Security hole in baby monitors, Encryption, Cloud Backup, Cloud storage, kids safety online, password managersKurzbeschreibungUpdated!
