Von Emer McKenna, Kevin Laahs, Veli-Matti Vanamo : SharePoint 2010 All-in-One For Dummies before purchasing it in order to gauge whether or not it would be worth my time, and all praised SharePoint 2010 All-in-One For Dummies:

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. nicht nur für Dummies Von HolleritOpa Gibt für die typischen Aufgabenstellungen Schritt-für-Schritt Handlungsanweisungen, die so tatsächlich auch funktionieren. Wo andere beim Konzept und Überblick stehen bleiben, gehen McKenna in die Tiefen der Administration. Gesucht habe ich ein Buch mit Anleitungen für die Erstellung eines Unternehmens-Wiki und bin hier wirklich fündig geworden. Klare Empfehlung für alle, die mehr als den philosophischen Aufbau sehen wollen.

Kurzbeschreibung Simplify SharePoint with this comprehensive, understandable guide SharePoint is a Microsoft

technology that enables project collaboration through a single portal. It can be complex, but not when approached the Dummies way! This guide offers eight self-contained minibooks that examine each aspect of SharePoint 2010.
