berragend guter Guide fr interessierte SharePoint-AdminsVon ChristianGekauft habe ich mir das Buch, da ich nach einigen Jahren als SharePoint- und allgemein Server-Administrator das bisher umschiffte Thema "Design und Branding" angehen wollte, bzw. musste. Da Microsoft keine passende Schulung anbietet, die sich wirklich nur auf das reine Branding des UIs spezialisiert, habe ich zu diesem Buch (mein erstes in der Richtung behaupt - normalerweise kaufe ich keine Fach-Bcher) gegriffen.Bereut habe ich es nicht. Es ist alles angenehm klar und deutlich formuliert. Es wurden keine unnutzen Umschreibungen verwendet und der Inhalt ist gut vermittelt. An Hand des User Guides konnte ich mein erstes vollstndig nach CI-Richtlinien gestaltetes SharePoint 2013 Design publishen.Daher: 5 Sterne - empfehlen kann ich es fr alle interessierten. Dennoch sollten zwei Dinge auf jeden Fall mitgebracht werden. Zum

einen zumindest ein wenig Verständnis von HTML, Javascript und Co (ja, auch als blinder Server oder SharePoint Admin) und die Fähigkeit englisch-sprachige Texte lesen und verstehen zu können. Viel Spaß damit.
