**Von Dover Publications : Sinking of the Titanic: Eyewitness Accounts (Dover Maritime)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Sinking of the Titanic: Eyewitness Accounts (Dover Maritime):

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. a survivor was a personal friend of mine Von William W. Zody I know personally the facts written in this book are absolute and correct as one survivor was Frank Goldsmith Jr with his mother Emily. Frank was 9 years old living until 1979. As Frank attested in 1972 while telling my wife and myself the entire story said then that the ship broke in to. the

proof was Robert Ballard's discovery. Events in this book Frank told me years ago had happened. He said the screams of dying is the same sound you hear in baseball parks when a home run is hit. I highly recommend this book to all at any price. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Dover does it again! Von meiringen I'm glad that Dover publishes these replica editions, because it would be nearly impossible to find this material elsewhere. These accounts, straight from the survivors, are important to those of us that study the Titanic, and should be shared with the public at large. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Sinking of the Titanic Von Denise Weimer I recently acquired a copy of the original book. Can you tell me how much that might be worth please? It is a wonderful book. The cover is not in mint condition! Thank you!

**Kurzbeschreibung** Published in 1912 within months of the sinking of the Titanic, this "memorial edition" of first-hand accounts by survivors, people in rescue boats, and other on-the-scene witnesses, offers heart-wrenching testimony about the great disaster, steeped in the sentiments of the day. Surviving passengers recount heart-breaking tales of parting with loved ones, watching the great ship sink while the steadfast band played "Nearer, My God, to Thee," and floating helplessly for long hours on icy seas. The search for responsibility began amid the grief of widows and orphans aboard the rescue vessel Carpathia, with accusations of ignored warnings, reckless attempts at record-setting, and the woefully inadequate supply of lifeboats. Enhancing the text are drawings of the ship's decks and luxurious interiors, along with numerous rare photographs of celebrity passengers, captain and crew, poignant images of survivors huddled in lifeboats, and many more striking scenes. Readers will be spellbound by the gripping, you-are-there quality of this unique volume and its remarkable vision of one of the great maritime disasters of history.
