**Von Hamidreza Sattari , Shameer Kunjumohamed : Spring Web Services 2 Cookbook** before purchasing it in order to gage whether or not it would be worth my time, and all praised Spring Web Services 2 Cookbook:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Too many typosVon mulenaticThe recipes are very helpful when starten to program a new web service, but the good impression goes away as soon as the explanations are road. My impression is that the kindle edition is the first version of the book and has not been corrected by a third person...

KurzbeschreibungThis is a cookbook full of recipes with the essential code explained clearly and comprehensively. Each chapter is neatly compartmentalized with focused recipes which are perfectly organized for easy reference and

understanding. This book is for Java/J2EE developers. As the books covers a variety of topics in Web-Service development, it will serve as a reference guide to those already familiar with Web-Services. Beginners can also use this book to gain real-world experience of Web-Service development. Kurzbeschreibung This is a cookbook full of recipes with the essential code explained clearly and comprehensively. He has been involved in several areas of Software Engineering--programming to architecture to management. His area of interest has been integration among enterprise applications and SOA. Hamidreza Sattari earned his MSc in Software Engineering in 2008 from Herriot Watt University, UK and his Bachelor's Degree in 1994 in Electrical Engineering (Electronics) from Tehran Azad University, Iran. In recent years his research area of interest has been scientific data mining, using algorithms and statistical techniques in pattern recognition, estimation and machine learning. Shameer Kunjumohamed is a software architect, specialized in enterprise application integrations and SOA. He is well versed in J2EE and Microsoft.Net platforms. He is interested in various mobile platforms including Android, Black berry and other cross-platform mobile frameworks these days. After graduating from Calicut University, India in 2000, Shameer handled different roles in software engineering. He graduated his Masters Degree in Software Engineering from Herriot Watt University, UK from Dubai International Academic City in 2009. At present he works as a Solutions Architect in Dubai, UAE, and is a guest lecturer in the same university for the Masters students in Information Technology.
