mechanical things and guns should know. If you want to make, buy, or own a gun you should read this. A must read.

**Kurzbeschreibung** This is a clear and simple guide to building a semi- or full-auto pistol or a single-shot, falling-block handgun from common materials in the privacy of your home workshop. In addition to offering many alternative workshop gunsmithing tips, the author explains how each part and section of the gun is made and discusses thoroughly the subjects of heat-treatment and bluing.
