KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. ber die Ursachen des Ersten WeltkriegesVon LanthaniumDas eBook *The Healing of Nations and the Hidden Sources of Their Strife* von Edward Carpenter wurde 1915 veröffentlicht. Es beschreibt aus der Sicht eines Zeitgenossen die gesellschaftlichen Kräfte, die zum Ausbruch des Ersten Weltkrieges geführt haben. Den Schreibstil empfand ich als keineswegs veraltet. Ich habe das Buch nur teilweise gelesen, wollte aber anderen Interessenten eine kurze Info geben, worin es in dem Buch geht (da derlei leider oft bei den kostenlosen Bchern von fehlt).

KurzbeschreibungOriginally published in 1915 in the middle of World War I, Carpenter explores the effects that the war was having on society and humankind as a whole from first-hand experience. In particular, papers focus on the differences between Germany and England, the causes of the war and suggestions for restoration and recovery when the war has ended. Carpenter details all of this in a realistic way drawing on matters such as class to put forward his anti-war stance as well as philosophical approaches to coping with tragedy. This title will be of interest to students of history, sociology and politics.
