Von Yoshifumi Tanaka : The International Law of the Sea before purchasing it in order to gage whether or not it would be worth my time, and all praised The International Law of the Sea:

KurzbeschreibungThe law of the sea is a complex and fascinating subject. This textbook explores the subject from the perspective of public international law, covering all the key topics from the legal regimes governing the different

jurisdictional zones, to international co-operation for protection of the marine environment. Students interested in international environmental and natural resources law will find chapters on emerging issues such as the conservation and the protection of natural resources and biodiversity in the oceans. It includes student-friendly features such as chapter overviews, conclusions, figures and tables and further reading sections. Clarity of expression, engaging analysis and comprehensive coverage make this book essential reading for all students of the law of the sea.

Pressestimmen

"This book provides comprehensive and up-to-date coverage of a central topic in international law. It goes beyond the traditional subjects covered in the law of the sea to include contemporary and important maritime issues, such as the conservation of marine biological diversity and the maintenance of international peace and security at sea. Presented in a simple, yet precise, manner, it will equip the reader with an understanding of all of the key issues in the law of the sea, as well as an appreciation of the challenges which still lie ahead for the subject." James Harrison, University of Edinburgh

"Professor Tanaka has written an excellent exposition of the law of the sea which offers both comprehensive coverage of key Conventions and agreements and analysis of pertinent judicial opinions and State practice. I very warmly encourage all students of this area of the law, to rely on this book in their further study of the topic." Duncan French, University of Sheffield

ber das Produkt

This textbook on the law of the sea sets the subject in the context of public international law. It comprehensively covers the principal topics of the course, from the legal regimes governing the different jurisdictional zones, to international co-operation for protection of the marine environment and marine living resources.
