spannende Entdeckung! Von Isabelle Eine sehr spannende Entdeckung, wirklich lesenswert! Finde es extrem schade, dass die Leute vor Ort so bei kooperieren - das ist doch unsere Geschichte! Auch ein interessanter Aspekt (wieder mal) für die katholische Kirche - endlich aufwachen aus dem Dornröschenschlaf ist angesagt!

Kurzbeschreibung The Jesus Discovery shows how a recent major archeological discovery in Jerusalem is revolutionizing our understanding of Jesus and the earliest years of Christianity. The Jesus Discovery is the story of a stunning new discovery that provides the first physical evidence of Christians in Jerusalem during the time of Jesus and his apostles. In 2010, using a specialized robotic camera, authors Tabor and Jacobovici explored a previously unexcavated tomb in Jerusalem from around the time of Jesus. They made a remarkable discovery: two ossuaries, or bone boxes, one carved with the earliest known image of Jonah; the other displaying a reference to resurrection. Since the newly discovered ossuaries can be reliably dated to before 70 AD, it is possible that whoever was buried in this tomb knew Jesus and heard him preach. In addition, the newly examined tomb is in close proximity to the so-called Jesus Family Tomb, and its discovery increases the likelihood that the Jesus Family Tomb is, indeed, the real tomb of Jesus of Nazareth. **Pressestimmen** "These newly discovered findings, revealed by a sophisticated robotic camera exploration, are extremely important for early Jewish-Christian archaeology." --Peter Lampe, Dr. theol., Dr. habil., Professor of New Testament Studies, University of Heidelberg **Pressestimmen**.
