bzgl. Israel informiert sein will, sollte dieses Buch lesen. Jede Kritik an Israel bzgl. der angeblichen völkerverletzenden Verhaltensweise des Staates bei seiner Siedlungspolitik erweist sich nicht nur als falsch, ganz im Gegenteil ist gerade Jordanien ein völkerrechtswidriges Gebilde, das entgegen der Beschlüsse des Völkerbundes in San Remo 1922 (Beschlüsse, die nach wie vor bindend sind für die UN als Folgeorganisation), unter Grossbritannien durch Missbrauch seines Mandats entstanden ist. Einen Staat Palästina hat es niemals gegeben, dieser Begriff wurde ca. um die Zeitenwende von den Römern für ein grösseres Gebiet eingeführt (es umfasst auch Syrien), das durch Jahrhunderte von unterschiedlichen Staaten beherrscht wurde; Palstinenser hat es folglich nie gegeben, dieser Begriff wiederum wurde erst 1967 von Arafat eingeführt aus politisch opportunen Gründen für Menschen, die aus unterschiedlichen muslimischen Ländern im 19. bzw. 20. Jh. eingewandert sind aus ökonomischen Gründen. Darunter viele Nicht-Araber.

**Kurzbeschreibung** The Legal Foundation and Borders of Israel under International Law offers a comprehensive and systematic legal treatment of Jewish national and political rights to all of the Land of Israel. The author, Howard Grief, is the originator of the thesis that de jure sovereignty over the entire Land of Israel and Palestine was vested in the Jewish People as a result of the San Remo Resolution adopted at the San Remo Peace Conference on April 24, 1920, which divided the land of the Ottoman Empire after World War I. Howard Grief has given us a book that shatters every myth, lie, misrepresentation and distortion employed to negate the sovereign rights of the Jewish People to their national home. It is a lengthy treatise, but the Jewish peoples long and tortuous struggle to retrieve their stolen patrimony deserves nothing less than full disclosure. Anyone who has ever been at a loss to counter the slanders and calumnies that are the stock in trade of the Israel-bashers and anti-Semites on both the Left and Right will treasure every one of its 20 illuminating chapters. Comment by Yuval Neeman Israels Minister of Science and Development (1981-1984) and Minister of Energy and Infrastructure (1990-1992), and subsequently chairman of the Israel Space Agency. Howard Grief first carried out an academic study until he found the most fitting answer. For about 400 years, the Ottoman Empire ruled over all the Balkans, the Middle East and North Africa. The struggle for the liberation of those areas began in the Balkan lands at the beginning of the nineteenth century and ended in 1913. In the First World War, the job [of liberation] was completed and Turkey was reduced to the Anatolian Peninsula. All of this was contained in the San Remo Agreement of April 1920. The fact that it was precisely at that place and time that Iraq, Syria, Lebanon and the states of the Arabian Peninsula obtained [thanks to the victory of the Principal Allied Powers over the Central Powers] the very same liberation from the Ottoman yoke strengthens the approach of Grief who presents the proof for the inclusion of Palestine [i.e., the Jewish People] in the list of beneficiaries in regard to the settlement [or disposition] of the inheritance of the Ottoman Empire. Grief has found the true and most effectual lever for our basic case, and I am convinced that his approach deserves to be utilized [in presenting our case to the world.] A Comment by Dr. Yaakov Meron Former Advisor on the Law of Arab Countries at the Ministry of Justice, Jerusalem, Israel The Legal Foundation and Borders of Israel under International Law by Howard Grief is a forceful and erudite pleading...not only for Israeli law but also the international law that came into existence in the wake of World War I. The Legal Foundation and Borders of Israel under International Law by Howard Grief is a forceful and erudite pleading...not only for Israeli law but also the international law that came into existence in the wake of World War I. This law, now largely forgotten or neglected, is still relevant today in regard to the status and borders of the Land of Israel.

Synopsis "The Legal Foundation and Borders of Israel under International Law" offers a comprehensive and systematic legal treatment of Jewish national and political rights to all of the Land of Israel. The author, Howard Grief, is the originator of the thesis that de jure sovereignty over the entire Land of Israel and Palestine was vested in the Jewish People as a result of the San Remo Resolution adopted at the San Remo Peace Conference on April 24, 1920.

Yuval Ne'eman, a former Israeli government minister said: "For about 400 years, the Ottoman Empire ruled over all the Balkans, the Middle East and North Africa. The struggle for the liberation of those areas began in the Balkan lands at the beginning of the 19th century and ended in 1913. In the First World War, the job [of liberation] was completed and Turkey was reduced to the Anatolian Peninsula. All of this was contained in the San Remo Agreement of April 1920. The fact that it was precisely at that place and time that Iraq, Syria, Lebanon and the states of the Arabian Peninsula obtained [thanks to the victory of the Principal Allied Powers over the Central Powers] the very same liberation from the Ottoman yoke, strengthens the approach of Grief who presents the proof for the inclusion of Palestine [i.e., the Jewish People] in the list of beneficiaries in regard to the "settlement [or disposition] of the inheritance of the Ottoman Empire." Dr. Ya'akov Meron, former Adviser on the Law of Arab Countries at the Ministry of Justice, Jerusalem, Israel and Professor of Moslem Law in the Faculties of Law of Jerusalem and Tel-Aviv wrote:

"The Legal Foundation and Borders of Israel under International Law" is a forceful and erudite pleading for the respecting of the letter and spirit of the law, not only Israeli law but also the international law that came into existence in the wake of World War I. This law, now largely forgotten or neglected, is still relevant today in regard to the status and borders of the Land of Israel. The author makes a thorough analysis of the international documents which recognized the rights of the Jewish People to the land of their ancestors, most significantly the San Remo Resolution on Palestine, agreed to by the victorious Allies at the Peace Conference of April 1920.
