Von Washington Irving : The Legend of Sleepy Hollow (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Legend of Sleepy Hollow (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. You feel that you are thereVon BernieAs with many readers my previous exposure to this story was the Disney Cartoon and the

ghoulish adaptation by Johnny Depp, Christina Ricci in the Movie "Sleepy Hollow" [Blu-ray] (1999). With my purchase of the kindle I was catching up on the classics or sample from different writers. I did not realize this was so short of a story and had to get the images out of my head from the films. I am amazed had what a good descriptive writing of Washington Irving. I had to set the book down occasionally to look up people and words. Now I ordered information on Hudson and Cotton Mather. I spent a year near the location of the story at West Point. Now I wonder if there was such a place as Sleepy Hollow. This is another example of the book being better than the movie. And I look forward to reading more of Washington Irving. You will be hooked on him also. In any event it is worth the read. I used the Text-to-Speech function of the book. I intend to purchase a copy from my physical library. The Legend of Sleepy Hollow (Disney Mini Classics) [VHS]

Kurzbeschreibung This e-book publication is unique which includes exclusive Introduction, Historical work and literary critiques. This edition also includes detailed Biography and Notes. A new table of contents with working links has been included by a publisher. This edition has been corrected for spelling and grammatical errors. From Publishers Weekly The San Souci brothers (The Legend of Scarface have retold the story of Ichabod Crane's last days alive, admiring the lovely Katrina and attending, at her father's home, a party where he hears of the Headless Horseman. Like A Christmas Carol, this story has been routinely reworked in strange and terrible ways. Here the artist has provided full-color paintings that show an awkward, frightfully thin Ichabod and the sweetly petite Katrina, set in 18th century surroundings. The pursuit at the end is shown in sweeping, eerie scenes. For those who find Washington Irving's original version hard going, this one is a fine alternative, especially for reading aloud. Copyright 1986 Reed Business Information, Inc. From Booklist It's been around for 150 years, but the story of Ichabod Crane and the Headless Horseman is still both shivery and funny. In the rich and heightened language of its time, it is still easily digestible. The naive, lanky schoolmaster Ichabod, the swaggering Brom Bones, and the rivalry over the "plump as a partridge" heiress Katrina Van Tassel are recognizable, indeed. Also recognizable are the landscape and towns of New York State, bursting with harvest ripeness. Add to this great mix the fine ghostly figure of the Headless Horseman, and the story remains a Halloween favorite. Oil paintings by Russ Flint will resonate with children who might have grown up with the Walt Disney sanitized version: elongated figures and rubbery angles fill an autumnal landscape of burnished colors in wicked oranges and golds. Grace Anne A. DeCandido
