Von Kelly Tyler-Lewis : The Lost Men: The Harrowing Saga of Shackleton's Ross Sea Party before purchasing it in order to gage whether or not it would be worth my time, and all praised The Lost Men: The Harrowing Saga of Shackleton's Ross Sea Party:

KundenrezensionenHilfreichste Kundenrezensionen0 von 2 Kunden fanden die folgende Rezension hilfreich. ber die SinnlosigkeitVon LadoomDie andere Shackelton Geschichte: Schiff verloren, kaum Ausrstung aber im Glauben das das Leben von Shackleton von Ihnen abhngt werden Depots nach Plan gelegt, ohne Rcksicht auf eigenes Leben. Die

Geschichte einer völlig sinnlosen Reise, ein Mu wenn einen die Geschichte der (Ant)arktis Entdeckung interessiert. Einzigstündig: Das ist eben ein Englischbuch also mit Fahrenheit statt Celsius, lustigen anderen Maßen und einem blödsinnigen Anhang, den auf die dicke Liste der Verweise verweist im Text nichts - der Anhang zitiert die Textstelle, dadurch wird er unbrauchbar - aber 100 Seiten dick. Nur für diejenigen die weit mehr als Schulenglisch können, denn das mitteldicke Wörterbuch ist mit dem Text erforderlich.

Kurzbeschreibung The untold story of the last odyssey of the heroic age of Antarctic exploration Sir Ernest Shackleton's 1914 Antarctic endeavor is legend, but for sheer heroism and tragic nobility, nothing compares to the saga of the Ross Sea party. This crew of explorers landed on the opposite side of Antarctica from the Endurance with a mission to build supply depots for Shackleton's planned crossing of the continent. But their ship disappeared in a gale, leaving ten inexperienced, ill-equipped men to trek 1,356 miles in the harshest environment on earth. Drawing on the men's own journals and photographs, *The Lost Men* is a masterpiece of historical adventure, a book destined to be a classic in the vein of *Into Thin Air*.

Pressestimmen 'The heart of the book lies in Tyler-Lewis's dissection of the men's relationships with one another. As friends are made, alliances formed and resentment festers, humanity is never lost, even amid inhumane conditions. Given the collection of military, civilian, scientific and blue-collar personnel that made up the expedition, it's compelling to see how each man deals with his fate. Add in the party's adventures of sledding in subzero temperatures with the sociological aspects of being stranded for nearly two years in such an inhospitable place, and the result is a gripping work' Publishers Weekly 'Tyler-Lewis, located the diaries and logs of 16 survivors. She also found public records and private papers and interviewed the families of the Ross Sea Party members. An exciting book' Booklist
