Von Calasso Roberto : The Marriage Of Cadmus And Harmony before purchasing it in order to gage whether or not it would be worth my time, and all praised The Marriage Of Cadmus And Harmony:

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. A life-changing work of geniusVon Ein KundeRoberto Calasso's retelling of the myths of antiquity is aspowerful and life-changing a book as I've ever read. Heilluminates these stories and brings them to life, showing us the power they held for the ancients by infusing them with his own narrative power, writing in a style which is crisp, modern, and yet full

of fantasy. We see our own lives in the lives of the gods and the lives of the humans with whom they spoke, made love, made war. This book would be worth reading simply for the engaging way in which Calasso tells the stories. He doesn't stop there, however. His insights and interpretations are worth a book in themselves. Nearly every page of my copy is filled with checks and underlined passages, each representing ideas which provoked thought or simply struck me as brilliant. This book is not another dictionary of myths in the style of Bullfinch and Hamilton and Graves--it is a work of literature in its own right, and, I believe, a work of genius. If you are interested in classical mythology, read this book. If you are not, read this book. It is for anyone who wants to see the world in a different, richer way.1 von 1 Kunden fanden die folgende Rezension hilfreich. An unforgettable masterpiece in the eyes of a teenager.Von Ein KundeI first saw this book, very thick, one year ago, poking out of some shelf at my school's library. 'Greek myth, huh?' I was up for the challenge. I guess I knew the stories well, but the brilliant narrative and style was so absorbing, I was hooked. Calasso re-opened my eyes to the World of Greek myth! I can't remember how many times I went back to take this book out- more than five, as far as I know. What I enjoyed about it most was how each of the characters was brought to life, each with thoughts, and fears, and desires not unlike that of mankind today. The first time I finished this book I felt Calasso had altered my life, or my perspective on it. I had to go back and read it again, and again. Simply a work of art, this is a treasure of wealth in the form of written knowledge. And, personally, I don't care who you are or where you are from, just read this book. You'll see what I mean.0 von 0 Kunden fanden die folgende Rezension hilfreich. Calasso stitches together the stories of ancient Greece.Von Alexis AllenThis breathtaking analysis of the core of Western thought spans mythology and reality, interpretation and metamorphosis. We see the primary characters seen through different versions of their stories, applied to the different needs of the culture and finally pull back to see the evolution of that need dissolve into mere fascination. A glorious book, I've read it three times!However, I strongly suggest that readers should have a fair background in Greek mythology before tackling this book.

KurzbeschreibungTHE MARRIAGE OF CADMUS AND HARMONY is a book without any modern parallel. Forming an active link in a chain that reaches back through Ovid's METAMORPHOSES directly to Homer, Roberto Calasso's re-exploration of the fantastic fables and mysteries we may only think we know explodes the entire world of Greek mythology, pieces it back together, and presents it to us in a new, and astonishing, and utterly contemporary way.Pressestimmen"A dynamic encounter between modernity and the oldest stories known to Europe." (Robin Blake The Independent)"I have no idea whether or not Roberto Calasso is a 'genius' but I do know that The Marriage Of Cadmus and Harmony is a perfect work like no other" (Gore Vidal)"It will be read and re-read not as a treatise but as a story: one of the most extraordinary that has ever been written of the origins of Western self-consciousness" (Simon Schama)"A masterpiece...a wonderfully fashioned work of art" (John Banville Irish Times)"A brilliant and profound narration" (A. S. Byatt The Times)WerbetextThe most interesting book to come out of Italy since Umberto Eco's THE NAME OF THE ROSE
