Von Geza Vermes : The Nativity: History and Legend before purchasing it in order to gage whether or not it would be worth my time, and all praised The Nativity: History and Legend:

Kurzbeschreibung In a similar format to the astonishingly successful *The Passion Professor*, Geza Vermes now turns his attention to the other key festival in the Christian calendar - Christmas. Vermes articulately and controversially disentangles the Christmas story as we know it, relating it to prophecies in the Old Testament and also to later Christian folklore, putting the nativity into its true historical context. This will be required reading for anyone wanting to know the true story behind the Nativity.
