**Von Mark Dice : The New World Order: Facts Fiction (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The New World Order: Facts Fiction (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Will a truly New WORLD Order come about?Von J. KimbroughAccording to Mark Dice in his well-written, concise lucid review of the current New World Order (N.W.O.) conspiracy theories, it will. His common sense approach to "vetting out" the facts from the myths from open source information (the only available) of N.W.O. conspiracy theories has provided a fairly accurate account of a potential threat to world order. He says this threat comes from various groups

formed during the Age of Enlightenment (1600-1800). As defined in Wiki, The Age of Enlightenment was a cultural movement of intellectuals in 18th century Europe and the United States, whose purpose was to reform society and advance knowledge. It promoted science and intellectual interchange and OPPOSED superstition, intolerance and abuses by church and state. During the Age of Enlightenment, various intellectual groups were rebelling against the system and had to meet in "secret" to discuss their ideas on how to reform society for the betterment of all or they would be "eliminated". From this movement came the American Revolution and others later. These groups were trying to bring about a positive "Utopian" Society or a N.W.O (as defined by Thomas More, HG Wells, BF Skinner and others) for ALL people. However over time, technology may improve, but human nature has not. This author believes the Illuminati, Freemasons and to a lesser extent the Rosicrucians and other "elite" groups have been infiltrated by wealthy, powerful, "evil" people into these secret societies with the intent to influence social political change and bring about a dark "Orwellian" dystopian N.W.O. Future controlled by just a few and the rest of us held subservient to them. Most of his points are based on the decline of American society and cannot really be taken as a worldwide phenomenon. Seeing human nature for what it is, I believe these individuals and groups that he defines as having "god-like delusions" across the world will never unite to bring about a Global Order. They will never let the other groups control them. However, I can see a country or regional New Order occurring. For example, look at the current North Korea. Remember the quote from the book "1984" - "Big Brother is watching you!" In the future, keep your eyes and ears open !

He has a bachelor's degree in communication from California State University. The term "fighting the New World Order" is used by Mark to describe some of his activities, and refers to his and others resistance and opposition (The Resistance) to the overall system of political corruption, illegal wars, elite secret societies, mainstream media, Big Brother and privacy issues; as well as various economic and social issues. Dice and his supporters sometimes refer to being "awake" or "enlightened" and see their knowledge of these topics as part of their own personal Resistance to the corrupt New World Order. This Resistance involves self-improvement, self-sufficiency, personal responsibility and spiritual growth.
