Von Donald Quataert : The Ottoman Empire, 1700-1922 (New Approaches to European History) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Ottoman Empire,

17001922 (New Approaches to European History):

KurzbeschreibungThe Ottoman Empire was one of the most important non-Western states to survive from medieval to modern times, and played a vital role in European and global history. It continues to affect the peoples of the Middle East, the Balkans and central and western Europe to the present day. This new survey examines the major trends during the latter years of the empire; it pays attention to gender issues and to hotly-debated topics such as the treatment of minorities. In this second edition, Donald Quataert has updated his lively and authoritative text, revised the bibliographies, and included brief biographies of major figures on the Byzantines and the post Ottoman Middle East. This accessible narrative is supported by maps, illustrations and genealogical and chronological tables, which will be of help to students and non-specialists alike. It will appeal to anyone interested in the history of the Middle East.

Pressestimmen"Donald Quataert's books and articles have become indispensable for those specializing in the modern history of the Ottoman world.... [this book] is a useful instrument for understanding the historical evolution of an unsettled part of the European world, as well as of the Islamic world." H-Net: Humanities and Social Services Online

ber das ProduktThis is a major new survey history of the Ottoman Empire, 1700-1922. Donald Quataert, a distinguished Ottoman scholar, has written a lively, authoritative and accessible textbook, supported by maps, illustrations and a chronology, which will be of enormous value to students and non-specialists alike.
