experience. The Return of Sherlock Holmes is a collection of 13 Sherlock Holmes stories, originally published in 1903-1904, by Arthur Conan Doyle. Sir Arthur Ignatius Conan Doyle DL (22 May 1859 7 July 1930) was a Scottish physician and writer, most noted for his stories about the detective Sherlock Holmes, generally considered milestones in the field of crime fiction, and for the adventures of Professor Challenger. "Death" of Sherlock Holmes In 1890 Conan Doyle studied ophthalmology in Vienna, and moved to London, first living in Montague Place and then in South Norwood. He set up a practice as an ophthalmologist. He wrote in his autobiography that not a single patient crossed his door. This gave him more time for writing, and in November 1891 he wrote to his mother: "I think of slaying Holmes... and winding him up for good and all. He takes my mind from better things." His mother responded, "You won't! You can't! You mustn't!" In December 1893, in order to dedicate more of his time to what he considered his more important works (his historical novels), Conan Doyle had Holmes and Professor Moriarty apparently plunge to their deaths together down the Reichenbach Falls in the story "The Final Problem". Public outcry, however, led him to bring the character back in 1901, in The Hound of the Baskervilles, though this was set at a time before the Reichenbach incident. In 1903, Conan Doyle published his first Holmes short story in ten years, "The Adventure of the Empty House", in which it was explained that only Moriarty had fallen; but since Holmes had other dangerous enemies especially Colonel Sebastian Moran he had arranged to also be perceived as dead. Holmes ultimately was featured in a total of 56 short stories and four Conan Doyle novels, and has since appeared in many novels and stories by other authors.
