**Von Derek McKay, H.M. Scott : The Rise of the Great Powers 1648 - 1815: Volume 2 (The Modern European State System)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Rise of the Great Powers 1648 - 1815: Volume 2 (The Modern European State System):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Essential reading for all eighteenth-century historiansVon Michael DurbanDespite its age, The Rise of the Great Powers remains one of the best overviews of eighteenth-century European diplomatic history. Detailed enough for students, yet simple enough for those with no prior knowledge of the period, it charts the development of the European 'balance of power' from the end of the Thirty Years' War to the beginning of the Pax Britannica. The depth of McKay and Scott's understanding of such a complex subject is awesome, and they combine to produce a thoroughly enjoyable and informative book.

KurzbeschreibungThe heyday of the European states system was in the century before the First World War. How the system of five great powers in conscious equilibrium came into being is the central theme of this book.Pressestimmen'...this book should be a boon to students for some years to come.' Slavonic and East European KurzbeschreibungThe heyday of the European states system was in the century before the First World War. How the system of five great powers in conscious equilibrium came into being is the central theme of this book.
