Von Mack Maloney : The Sky Ghost (Wingman) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Sky Ghost (Wingman):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. The strangest one of the bunchVon Ein Kundel'm guessing that Mr. Maloney wanted to experiment with alternate history with this one. Blasting a somewhat amnesiac Hawk Hunter into a parallel universe where World War Two has been raging for half a century made for an interesting plot; it allowed Hunter to run into characters who had been dead for at

least two prior novels. THE SKY GHOST contains all the trademark features of the WINGMAN series: intense aerial combat sequences, Hunter taking on large numbers of enemy airplanes on his own and routing them, tricked-out gimmicky airplanes, an endangered America, and kinky sex. Overall it was a little wierd, but a fine addition to the series nonetheless.0 von 0 Kunden fanden die folgende Rezension hilfreich. HAWK HUNTER GETS WET BEHIND THE EARS Von Ein Kunde I rated this book as three stars due to its weird aspect and the fact that the Wingman series is getting really bizarre. But as for the action and sci-fi quality it ranks a 5. Anyway, it seems our friend Hawk is lost in a world where bigger is better. All of the military hardware is huge, such as the Flying Boxcar and the German cargo plane that is the size of a cruise ship. It seems that fire and water are a theme of this book as floods and dambreaks take place as well as firebombings. For you fans of the Wingman series, what happens near the end will get your attention!! Personally, I'd like to see Hawk make it back to the real world.0 von 0 Kunden fanden die folgende Rezension hilfreich. Starts of quite different but soon it's Hawk at his best. Von Ein Kunde Hawk Hunter lands in a parallel reality unsure of who he is. He soon discovers his unique talents and his sixth sense. I was at first unsure of how well this would work out with the strange aircrafts in this book. I was very pleased with the outcome and found myself lost in the book as the story progresses. Over all "Sky Ghost" is keeping true to the series and the character of Hawk Hunter.

Kurzbeschreibung After a final act of heroism, the Wingman lands in another dimension, where the Second World War is still raging more than five decades later
