Von Mark Ellis : The Spur-Loki's Rock (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Spur-Loki's Rock (English Edition):

A thrilling sf-western and an amazing action storyVon Alfred WallonTHE SPUR is written by Mark Ellis - the creator of the OUTLANDERS series. As I am a reader and collector of the DEATHLANDS and OUTLANDERS series, I soon got hooked on the scenery and the storyline.It is surely a MUST for readers of DEATHLANDS and OUTLANDERS. While reading the book, I sometimes had the impression that Ryan Cawdor and his warrior band were crossing the

wasteland with War Wag One. Good story, I will definitely buy the second volume - as soon as it is published. And I want to express my wish for a series about the TRADER, before he met Ryan Cawdor...

Kurzbeschreibung Bizarre Native Plants, Resurrected Nazi Supermen and Flocks of Flying Piranha Populate LOKI'S ROCK. An action-packed page turner of a yarn from Mark (James Axler) Ellis, writer of Doc Savage, author of Cryptozoica and creator of the best-selling Outlanders series. The colony world in the Orion Spur known as Loki wasn't so much lost as forgotten. In the 188 years since a world-wide catastrophe destroyed what passed for civilization there, Loki had become a savage wilderness of strange cultures, as well as being the sanctuary for every bizarre cult, mad sect and outlawed scientific discipline in the Sol 9 Commonwealth. Quentin Crockett, a Colonel in the department of OffWorld Operations leads a team of specialists to Loki to monitor, catalog, and if necessary, eliminate the myriad societies that sprang up in the wake of the global cataclysm. In their armored ACP Ambler, the team travels Loki, searching for the lost Terran Enclave, while fighting off not only wild beasts, and the wilder natives but also the ruthless schemes of a mastermind about whom they know practically nothing. In The Spur: Lokis Rock, Crockett and his team contend with the bizarre native fauna, but also with resurrected Nazi supermen, flocks of flying piranha, and the denizens of the kill-crazy town of Lokis Rock, led by the psychotic Django Bonner and his bloodthirsty hench-wench, Pagan. Ellis, the veteran author of 50 books as well as numerous comic properties, including such classics as: Death Hawk, The Justice Machine and Doc Savage: Man of Bronze, spent 15 years writing novels for Gold Eagle, the action-adventure imprint of Harlequin Enterprises. Under the pen name of James Axler, he created the best-selling Outlanders series, now in its 15th year of consecutive publication, making it the most successful mass-market paperback series published in the last 25 years.
