Pageturner!Von Stefan MelneczukLooking out for a book about the Templar treasure, exciting like a thriller?Perfect choice - first time published in the US, after thrilling its audience with the german versions "Templar Treasure" and

"Templar Cathedral". Both books were produced by Random House Germany - a treasure hunt leading to Northern France, fascinating Douglas Preston in person. Any questions?

Kurzbeschreibung Following author Tobias Wabbels research and investigation throughout Europe, this book solves the mystery of the treasure of the Knights Templar. The most up-to-date archeological and historical information is discussed, from the history of the Knights Templar and the history of the Israelites and the Ark of the Covenant, to medieval literature and Gothic cathedral architecture. Disproving common theories the Knights Templar never guarded the pilgrimage ways in Palestine, there is no Priory of Sion, there is no bloodline from Jesus to the present day, and there is no authentic Shroud of Turin the book also proves the existence of the sacred Ark of the Covenant, also known as the treasure of the Knights Templar, which is still hidden in France. Wabbel researched iconography in the architecture of cathedrals and chapels, and found more evidence in texts and inscriptions that led to his theory on the location of the Templar treasure. Both a travel guide to the secrets of the treasure of the Knights Templar and a fascinating read, this book will shake commonly held beliefs on this interconnected history and renew the interest in it. A fact-based treasure hunt through time
