This is a book every Christian needs to read and study!Von Ein KundeThis is a book that every Christian needs to read and keep right next to their bibles so that they can study it and read it over and over. There is more revelation in this book than the reader can obtain with one go-through. I am in the process of reading it the second time. While reading this

book, I realized the importance of renewing our minds daily and taking every thought into captivity and under the submission of the Lord. Von Ein KundeI first purchased this book in the early 90's and what an eye opener it was! If you are involved in spiritual warfare, then this is the book that you should have. If you just want to know more about spiritual warfare, then this is also the book you you must have. Recently, I was led back to this book to review the chapter on the Jezbel spirit. The application of the book is still as powerful today as it was when I first read it!1 von 1 Kunden fanden die folgende Rezension hilfreich. A small book with enormous spiritual punch Von Gretchen Williams From the first chapter about the battleground of the mind, the author's penetrating style invites the reader to an ongoing spiritual maturing process. This is a book to take a bit at a time, taking time along the way to search your own heart and make adjustments. It is neither driving nor condemning, but is an invitation to live more in line with the word of God. "Agree quickly with your adversary", Frangipane reminds readers. He goes on to explain that if there is an area of darkness in your life, deal with it; for the things hidden away in darkness are the legal playground for the enemy of your soul. This book is a probing and life-changing volume! Whole circles of people have urged one another to wrap their hearts around this text. Read it yourself, work it into your heart, and pass it along.

Kurzbeschreibung This book is an in-depth view of the three arenas of spiritual warfare which the maturing Christian will face: the mind, the church and the heavenly places. It provides a foundation of insight, wisdom and discernment on the nature of the battle and the keys to victory. The Three Battlegrounds will serve as a companion for those serious prayer warriors and leaders who are making preparations for the days ahead.
